☎️ +91 8929822728

PROFILE INFO

DevOps Engineer with a strong foundation in Network & Desktop Engineering. Expert in bridging the gap between infrastructure and development through automation. Proficient in Linux, Cloud platforms (AWS), Docker, and Kubernetes. Experienced in building automated CI/CD pipelines to accelerate software delivery while maintaining high system availability and security.

EDUCATION

2025 - 2026

HYPER TECH PVT LTD

- Certification in Cloud & DevOps architecture.

2020 - 2023

HIERANK BUSINESS SCHOOL

- Bachelor of Application

SKILLS

- TECHNICAL SKILLS
- Operating Systems: Linux (Ubuntu), Windows
- Containerization: Docker, Docker Compose
- CI/CD Tools: GitHub Actions
- Version Control: Git, GitHub
- Cloud Platforms: AWS EC2, VPC, S3 (basic deployment)
- Databases: MySQL
- Networking: IP Addressing, DNS, Port Management

SOCIAL LINKS

- [LinkedIn](#)

PERSONAL DETAILS

- Date of Birth : 14 Sep, 2001
- Marital Status : Unmarried
- Native Place : Gorakhpur, India

WORK EXPERIENCE

JAN 2025 - PRESENT

R.S. PrintFabs Pvt Ltd.

IT Executive

- Assisted in managing Linux servers and performing basic system administration tasks.
- Used Git & GitHub for version control and code collaboration.
- Built and managed Docker containers for application deployment.
- Created CI/CD pipelines using Jenkins to automate build and deployment.
- Deployed applications on AWS (EC2, S3).
- Managed multi-container applications using Docker Compose.

Stratosphere IT Pvt Ltd

Desktop Support

FEB 2024 - DEC 2024

- Troubleshoot network issues - LAN, WAN, Wi-Fi, IP conflicts - you name it.
- Configure switches and as per need make vlan.
- Install, configure, and maintain operating systems and applications (Windows/Linux)

PROJECTS

Two-Tier Flask Application - Dockerized Web Architecture

- Designed and deployed a two-tier application with frontend and MySQL database containers
- Containerized application and database services using Docker
- Configured inter-container communication using Docker networking
- Managed environment variables for database connectivity
- Implemented volume mapping for persistent database storage
- Pulled and pushed images using Docker Hub for easy deployment
- Tech Stack: Docker, Docker Compose, MySQL, Linux, Docker Hub
- Docker Hub: <https://hub.docker.com/r/himanshu014/two-tier-app>

Dockerized Portfolio Application (Docker Hub)

- Built and containerized a personal portfolio website using Docker
- Created a custom Docker image to serve static web content using Nginx
- Published Docker image to Docker Hub for global access and reuse
- Enabled easy deployment using docker pull and docker run commands
- Configured container to expose application on port 80
- Tech Stack: Docker, Docker Hub, Nginx, Linux
- Docker Hub: <https://hub.docker.com/r/himanshu014/portfolio>
